

Exhibit 8: Partner Agency Agreements

(Applies only to **Region Applicants**. Emergency Shelter Applicants will not have an Exhibit 8)

The Office of Community Development recognizes the scale and complexities involved in providing homelessness prevention and rapid re-housing to the entire region. Based on the need for collaboration among agencies providing those services and programming, partner agency agreements will be permitted between the grantee and other organizations for the implementation of the grant.

- The grantee must submit an executed copy of the partner agency agreement(s) to the Office of Community Development with the application. All partner agencies must be named below at the time of application.
- The agreement must detail: 1) The specific services the partner agency will provide; 2) the associated costs; 3) the rationale for the partnership; and 4) expectations for monitoring and reporting.
- If more than two partner agencies per county are needed, the grantee should include additional logic explaining the need.

Partner Agency
